

SUMMER SERVICE AT SAN TELMO SCHOOL, MEXICO EP SUMMER

ABOUT

El Porvenir (EP) Summer is a summer education program to serve the local children of San Telmo, a rural farming community in Baja California. Many here suffer from drug/alcohol addiction and broken families. Throughout the years, 4 Christ Mission has seen the love of Jesus Christ heal, renew, and redeem families in San Telmo. Our team of missionaries gathers to host an education program--which includes English, dance, art, science, leadership training--that offers opportunities to discover their God-given value and purpose. Above all, we are filled with faith that every child would have an encounter with Jesus Christ. We teach and disciple the students for 3 weeks, hoping that they will inherit the Kingdom of God. We believe that education coupled with the Gospel can transform their lives. Our Father has a special plan for each of His children, and it is our vision to see His Kingdom come.
