

# EP SUMMER

EP Summer is a 1 month mission trip to Baja California, Mexico where you will be serving the community of San Telmo through a summer educational program for both children and young teens. Students will enjoy an exciting summer program full of activities ranging from Dance, Art, Science, Architecture, Music, and Discipleship, prepared by mission participants, to learn about their God-given value and purpose in Jesus Christ. Through education, personal relationships, and prayer, we believe that God will give each student, kingdom vision for their lives, a personal relationship with their Creator, and the gift of eternal life. God is looking for willing people to serve Him and help share the greatest news of all history! Will you join us this year at EP Summer?
